PROFESSIONAL SUMMARY

- With over a decade of experience in software project management and consulting, I excel in fostering cross-team collaboration and strong customer relationships. I provide technical support to the sales team, precise requirements to the development team, and coordinate customer relations for the post-sales team, driving projects to successful completion while consistently ensuring cost-effectiveness and strict adherence to timelines.
- Now, I am restarting my career as a passionate programmer. Bringing ideas and creativity to life is truly captivating, and I thoroughly enjoy it. I am delving into web development (JS, HTML, CSS) and front-end frameworks like React and Tailwind CSS.

WORK EXPERIENCE

PROJECT MANAGER, BEIJING

KYLINSOFT CORPORATION, January 2020-May 2024

- Led projects for enterprise clients worth **NZD 8 million in 2023**, delivering on time and within budget.
- Oversaw multiple high-stakes tasks simultaneously, coordinating with sales, product, development, and post-sale teams, securing support from leaders and stakeholders.
- This experience reinforced my belief in detailed planning, effective team coordination, and strong communication.

PRE-SALES CONSULTANT MANAGER, BEIJING

BEIJING NATIONSKY NETWORK TECHNOLOGY, May 2016-January 2020

- Led a **team of 7**, managing over **100 UEM (Unified Endpoint Management system) projects** annually.
- Managed personnel coordination, key project support, client presentations, and bids, leveraging a deep understanding of customer needs and industry trends to drive pre-sales activities.
- Focused on building a cohesive team by implementing **Jira** for efficient task management and **Confluence** for continuous skill development, ensuring adaptability in dynamic situations.

PRE-SALES CONSULTANT, BEIJING

BEIJING SMARTDOT TECHNOLOGY, May 2007-April 2016

- Provided technical support to the sales team, responsible for achieving an **annual profit of NZD 4.5 million**.
- Focused on **workflow systems, contract management systems, and CRM solutions**.

FULL-STACK DEVELOPER, BEIJING

CHINA RESOFT COMPUTER SYSTEM ENGINEERING, July 2005-May 2007

- Responsible for developing, testing, and maintaining applications.
- Provided technical support for existing applications, troubleshooted issues, and implemented solutions.
