PROFESSIONAL SUMMARY

- With over a decade of experience in software project management and consulting, I specialize in turning complex, high-stakes projects into success stories. I excel in fostering cross-team collaboration and building strong customer relationships by providing technical support to the sales team, delivering precise requirements to the development team, and coordinating post-sales customer relations.
- My ability to communicate effectively across both technical and operational areas enables me to bridge the gap between stakeholders and hands-on teams. I am passionate about streamlining processes, reducing inefficiencies, and driving projects to successful completion. I bring a calm, solution-focused mindset to every challenge, keeping teams aligned with broader business goals while ensuring cost-effectiveness and strict adherence to timelines.
